

Highlights

- Following the 24 June earthquakes of magnitude 7.2 and 7.5 (18:00 local time), **authorities report more than 1,200 aftershocks.**
- Official toll: **4,829 people dead and 16,740 injured.**
- **An additional appeal for US\$299 million was launched to scale up the earthquake response and address the multisectoral needs of 1.3 million people over the next six months.**
- The United Nations system and its partner organizations, in coordination with the Government, are responding with multisectoral actions and will continue to scale up assistance to affected people.

Situation overview

Venezuela is facing a national emergency following two consecutive high-magnitude earthquakes (7.2 and 7.5) that struck on 24 June (18:00 local time) in the north-central region, with the epicentre located along the San Felipe–Yumare–Montalbán axis (Yaracuy/Carabobo). **Authorities report 1,284 aftershocks.**

Twenty-one days since the earthquakes, authorities report a toll of **4,829 people dead and 16,740 injured since the onset of the emergency.** Authorities also indicated that **17,907 people lost their homes.**

The Government response remains focused on search operations, the management of transitional camps and assistance to affected populations. The United Nations and its partner organizations, in coordination with the authorities, continue implementing multisectoral response activities and scaling up assistance. United Nations Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator Tom Fletcher **announced a US\$299 million addendum to the Humanitarian Response Plan aimed at addressing the multisectoral needs of 1.3 million people over the next six months.** This is in addition to the 5.5 million people already targeted under the 2026 Humanitarian Response Plan, which requires US\$632 million in funding.

Impact on infrastructure

- Authorities report at least **856 affected buildings**, including **190 that have collapsed.**
- As part of recovery and reconstruction planning, authorities have identified 40 sites in La Guaira State, covering approximately 584,000 square metres, for the development of housing projects intended for affected populations.
- An initial assessment by the United Nations Office for Disaster Risk Reduction (UNDRR) indicates that direct damage to housing and infrastructure amounts to approximately US\$37 billion. Most of

the damage, estimated at around US\$24 billion, is concentrated in housing, businesses, schools, hospitals, and public facilities. Meanwhile, preliminary estimates by UNDP indicate direct physical damage of US\$6.7 billion, equivalent to 6 per cent of GDP.

National response

- The Government response remains focused on search and rescue operations, as well as assistance to affected people.
- According to authorities, the response continues with **106 transitional camps supporting affected populations**, with a capacity of **25,351 people and a current occupancy of 20,857 people**. As of 15 July, 40 camps are located in Caracas, 28 in Miranda, 28 in La Guaira, and 10 in Aragua.
- Authorities are advancing a unified registration process for affected families in transitional camps through the collection of biometric and contact information to support assistance management, social support programmes and housing solutions.
- The Government of Venezuela announced the creation of an initial reconstruction fund equivalent to US\$200 million.
- A psychosocial support hotline remains available for affected people: 0800-AYUDA-01.
- A digital [form](#) has been launched by the National Council for Persons with Disabilities (CONAPDIS) to support a timely and inclusive response in affected areas.
- Mechanisms have been established to locate missing persons (www.localizapacientes.com) and to report affected individuals (0-800-RESCATE).
- School activities remain suspended in affected municipalities across the states of Aragua (Santiago Mariño, Girardot, Ocumare de la Costa de Oro and Tovar); Carabobo (Juan José Mora, Puerto Cabello, Naguanagua and Valencia); Falcón (José Laurencio Silva); La Guaira (Vargas); the Capital District (Libertador); and Miranda (Chacao, Baruta, El Hatillo, Sucre, Plaza, Zamora, Acevedo, Brión, Buroz, Páez, Andrés Bello and Pedro Gual).

Situation by state

Capital District (Caracas) and Miranda

- A coordination meeting was held with authorities from the Miranda State Government and Inter-Cluster members to share the results of the multisectoral needs assessment conducted in seven transitional camps. Response priorities were presented, and partners agreed to strengthen the capacities of shelter coordinators and frontline personnel through cluster-led training and capacity-building activities.

Response actions: Organizations such as Tinta Violeta, FUNDANA and World Vision are providing protection support to affected families, particularly through psychosocial assistance.

La Guaira

- Authorities and humanitarian organizations continue strengthening the response in La Guaira's transitional camps through the expansion of multisectoral services, improvements in accommodation conditions and coordinated assistance management. The distribution of essential items, food assistance, protection activities, health and psychosocial support interventions, as well as actions to improve access to safe water, sanitation, connectivity and community infrastructure, continue.

Carabobo and Yaracuy (epicentral zone)

- In Yaracuy, particularly in Veroes municipality and other localities near the epicentral area, homes have been reported as destroyed or at high risk. Recent assessments have identified priority needs in protection, mental health and psychosocial support, health, shelter, water, sanitation and hygiene (WASH), and food security.

Response actions: Five organizations (Venezuelan Red Cross, CESAP, Tierra Viva, Cáritas Morón and Empodérame) are providing response in health, food, water and the distribution of humanitarian assistance.

Falcón (Tucacas – Silva municipality)

- The Local Coordination Forum (LCF) continues to monitor potential complementary support needs for families displaced from La Guaira and Caracas. In coordination with UNICEF, the situation in Silva municipality was reviewed, highlighting the need for sustainable and complementary interventions.
- OCHA and authorities facilitated an inter-institutional coordination meeting to identify priorities for complementary action in water, sanitation and hygiene (WASH), health, nutrition, family planning, environmental sanitation, and livelihoods. As a result, UNICEF will assess potential areas for intervention.

Response actions: Capacity-building activities led by the Protection Cluster, as well as WASH and psychosocial support interventions in Boca de Aroa and Palmasola, are ongoing. These activities are being implemented by ACH, Azul Positivo, IOM, Centroccidente, ODISEF and AVSI in coordination with regional authorities.

Other states

- **Apure:** The number of people affected mobilized to the state remains approximately 250. The Local Coordination Forum (LCF) continues to monitor the situation and provide multisectoral assistance, including psychological first aid.
- **Bolívar:** Representatives of the humanitarian community and the State Government coordinated actions to strengthen the response for people displaced from earthquake-affected areas. Key priorities identified include strengthening the technical capacities of frontline personnel and providing specialized psychosocial support. According to official figures, 63 families (198 people) have been registered and profiled: 42 in Caroní, 15 in Angostura del Orinoco, three in Padre Pedro Chien, two in Cedeño and one in Piar. Identified families have received initial assistance, including needs assessments, psychological first aid, health services and support for the regularization of identity documents.
- **Delta Amacuro:** Authorities and humanitarian partners reviewed preparedness and response actions for families mobilized from earthquake-affected areas. WFP plans to provide immediate food assistance during the first 72 hours, while Cáritas Delta Amacuro may support with hygiene kits and World Vision with food baskets for households with children. Humanitarian actors will also coordinate capacity-strengthening and information management activities to support the registration, tracking and assistance of people arriving in the state.
- **Zulia:** The medical triage and information point for families on the move remains operational at the Maracaibo passenger terminal, in coordination with the Venezuelan Red Cross and ASONACOP. Reports from 14 July indicate a declining mobility trend, with family groups arriving from Catia La Mar and La Guaira, either bound for Maracaibo or transiting onwards to Colombia (Cartagena).
- In **Monagas, Anzoátegui, Nueva Esparta, Trujillo and Lara**, previously reported coordination, stockpiling and monitoring activities remain ongoing. Local Coordination Forums continue to monitor assistance delivery and protection risks affecting populations on the move.

Humanitarian coordination

- OCHA, together with the Humanitarian Coordinator and in coordination with national authorities, continues to coordinate the humanitarian response with the United Nations and partner organizations, prioritizing actions in health, shelter, food security, WASH, logistics and protection.
- UNDAC and OCHA continued supporting Civil Protection in strengthening emergency coordination and information management capacities, including technical exchanges on USAR coordination mechanisms and operational tracking tools.
- A total of 71 search and rescue teams from 31 countries, comprising 2,786 personnel and 216 search dogs, were deployed to the worst-affected areas in support of rescue operations. The total includes teams that are currently being demobilized.
- OCHA continued strengthening coordination with the private sector to support response and early recovery efforts, promoting engagement with specialized actors in areas such as logistics, debris

management, infrastructure rehabilitation and reconstruction planning through existing coordination mechanisms between the United Nations and the private sector.

- Venezuelan authorities requested the activation of the Post-Disaster Needs Assessment (PDNA) within the framework of the United Nations system and with the support of UNDP. In line with the internationally recognized PDNA methodology, the corresponding coordination efforts with relevant counterparts will be advanced.
- Authorities informed the activation of a special mechanism to expedite the processing of a “Work Visa for Special Situations” through the Ministry of Foreign Affairs. The procedure will be carried out online under the coordination of the Office of the Vice Minister for Multilateral Affairs and the Consular Affairs Office. It is intended for foreign personnel of international organizations, as well as United Nations staff, deploying to Venezuela in support of the response to the earthquake emergency.

Initial humanitarian response

Food Security

- WFP is progressively expanding its operation, providing critical food assistance beyond La Guaira. While La Guaira was the most severely impacted state, other states (including Miranda, Yaracuy, Falcón, Carabobo, and Aragua) are also grappling with the aftermath of the earthquakes. In response, on 15 July alone, WFP carried out its first distribution in Miranda state, reaching 1,160 people affected by the earthquakes in the Higuero, Curiepe, and Tacarigua parishes.
- In parallel with this expansion, WFP continued to deliver assistance there through general food distribution, providing food baskets to 4,348 people in affected communities and serving 7,358 hot meals to people living across the UN-coordinated temporary shelters. WFP will continue to expand its reach while sustaining assistance to those most impacted by the earthquakes. Since the beginning of the emergency response, **WFP has reached 73,228 people with food assistance.**

Health

- UNICEF supported the administration of 76 vaccine doses in the transitional camp of Polideportivo Vargas (44) and César Nieves (32). At the Playa Grande transitorial camps, UNICEF, through the Ministry of Health, provided basic health care services to 32 people.
- On 15 July, UNFPA reported activities in César Nieves, Playa Grande and Polideportivo transitional camps, including 143 awareness-raising sessions and 32 antenatal consultations, of which 31 were conducted in Polideportivo and one in César Nieves. In addition, 100 modern contraceptive methods (MCMs) were distributed, including 91 subdermal implants, seven injectables and two oral contraceptives.
- At the Playa Grande transitional camp, 147 medical consultations were provided by Project HOPE and Ven Da Tu Mano.
- International Medical Corps (IMC) continues to deploy Mobile Medical Units and an Emergency Medical Team (Type 1 EMT) in La Guaira state, providing primary health care, sexual and reproductive health services, and mental health and psychosocial support (MHPSS), while also supporting access to safe water through the provision of drinking water. Between 1 and 14 July, IMC conducted 1,586 consultations in affected communities. The main reasons for consultation were non-communicable diseases (47 per cent) and communicable diseases (38 per cent), followed by mental health and psychosocial support services (6 per cent), sexual and reproductive health services (6 per cent), and trauma and injury care (3 per cent), highlighting sustained demand for essential health services in affected areas.

Logistics and Telecommunications

- Through the Logistics Working Group (LWG), WFP supported the transportation of 37.93 metric tonnes of WASH and shelter supplies belonging to the International Federation of Red Cross and Red Crescent Societies (IFRC) from Maiquetía International Airport to the LWG warehouses in La Guaira.

Nutrition

- UNICEF established three breastfeeding support spaces in three transitional camps, providing guidance and assistance to breastfeeding mothers.
- At the César Nieves transitional camp, UNICEF conducted nutritional screening for children and adolescents and provided support to pregnant women.

Protection (including Children and Gender-Based Violence)

- As of 15 July, UNHCR had reached 875 people in the José María Vargas, César Nieves and Playa Grande transitional camps through legal assistance, case management, psychosocial support, counselling and referrals to specialized services. In addition, 136 children and adolescents and their families received guidance on birth registration, identity documentation and legal representation, complemented by psychosocial and socio-emotional support to strengthen coping mechanisms in the aftermath of the earthquakes.
- UNFPA continued conducting awareness-raising activities on gender-based violence (GBV) and menstrual hygiene in the César Nieves transitional camp, complemented by the distribution of 16 dignity kits to adolescents.
- UNICEF and its partners provided psychosocial support to 132 children and adolescents and 55 parents and caregivers through Child-Friendly Spaces and group sessions in the J.M. Vargas, César Nieves and Playa Grande transitional camps.

Shelter and Non-Food Items

- UNHCR strengthened shelter and protection conditions in the José María Vargas, César Nieves, Playa Grande and Mare Abajo transitional camps through the distribution of 539 solar lamp and mosquito net kits, 200 solar flashlights, and the installation of 132 solar floodlights and other temporary structures to improve lighting and safety in communal areas, sanitary facilities and accommodation spaces.
- In the La Guaira transitional camps, coordination, shelter support and multisectoral service provision continued. At the José María Vargas transitional camp, IOM continued assisting 347 families, updated population records and coordinated relocation processes to shelters in Caracas. Government officials, diplomatic representatives and United Nations personnel also conducted monitoring visits to the José María Vargas and Playa Grande camps to review assistance conditions and the needs of the affected population.
- At the Playa Grande transitional camp, planning advanced for the relocation of the site to the República del Salvador Educational Unit, while health, protection, food assistance, and water, sanitation and hygiene (WASH) services continued to be provided.
- In Campo de Golf (Tanaguarena) transitional camp, IOM distributed 50 non-food item (NFI) kits, advanced coordination for the establishment of spaces for humanitarian service delivery, and conducted awareness-raising activities on safe coexistence and the prevention of trafficking in persons.
- In Mare Abajo II transitional camp, humanitarian organizations strengthened inter-agency coordination to improve service complementarity. Infrastructure improvements for shelter and sanitation continued, including the installation of bunk beds, upgrades to tents, and the construction of showers and drainage systems, alongside the provision of health, food assistance and WASH services for the affected population.

Water, Sanitation and Hygiene (WASH)

- UNICEF and its partners continue to provide 80,000 litres of safe water per day across the three identified transitional camps in La Guaira, benefiting approximately 3,500 people.
- In the identified transitional camps in La Guaira, UNICEF continued to maintain and upgrade laundry facilities and handwashing stations, ensured the cleaning of portable toilets, and strengthened

sanitation conditions through the provision of laundry points, handwashing facilities, sanitation services and water storage capacity. In addition, hygiene promotion activities reached 772 people.

Humanitarian financing and contributions

- The United Nations humanitarian chief, Tom Fletcher, announced an **additional appeal under the Humanitarian Response Plan for Venezuela**. The appeal outlines the multisectoral needs of 1.3 million people over the next six months. To reach those in need, US\$299 million is required, in addition to the US\$632 million requested at the beginning of the year.
- **IOM** launched a US\$98 million appeal to assist 850,000 people and support 140 entities over the next six months. **PAHO/WHO** launched an emergency appeal for nearly US\$24 million to support health response and early recovery activities over the next six months and released US\$1.5 million from the Contingency Fund for Emergencies. **WFP** launched an initial appeal for US\$80 million to provide food assistance to 500,000 people over a six-month period. **UNHCR** requires US\$14.8 million to support up to 30,000 affected people over the next six months.
- **The European Union announced on 15 July an additional contribution of €20 million to support humanitarian action in the country. Of this amount, €10 million will support search and rescue operations, medical assistance, the deployment of additional experts, and material assistance in the country.** This contribution comes in addition to the €5 million previously announced for the earthquake response and the €52 million already allocated to humanitarian operations in Venezuela this year.
- Additionally, as part of the European Union Humanitarian Air Bridge launched in June, two EU-funded flights have already arrived in the country carrying nearly 80 tonnes of essential supplies.
- Authorities announced the arrival of two aircraft carrying 41.3 tonnes of humanitarian assistance from Colombia. The supplies included non-perishable food items, personal hygiene kits, infant formula and other relief items.
- The Government of **Italy** allocated US\$5.7 million to support the humanitarian response to the earthquakes, helping deliver life-saving assistance, protection and access to essential services for affected populations through AICS, WFP and IFRC.
- The Central Emergency Response Fund (**CERF**) allocated US\$15 million to support a multisectoral response, alongside the activation of the Venezuela Humanitarian Fund (VHF). **Norway** contributed to support the response through CERF.
- **The United States** announced a US\$100 million contribution to the VHF, in addition to a further US\$100 million in bilateral funding for response operations implemented by IOM, WFP, UNICEF, International Medical Corps, Catholic Relief Services, Samaritan's Purse, Proyecto Esperanza and the Red Cross.
- **Germany** and the Republic of **Korea** contributed US\$5 million and US\$1.25 million, respectively, to the VHF to support humanitarian action in the country.
- The **Republic of Korea** announced an additional allocation of **US\$3.5 million** in humanitarian assistance. Of this amount, **US\$3 million** will be channelled through **UNDP** to support debris removal activities, while the remainder will be provided in-kind, specifically through **30 metric tons of temporary shelters (family tents)**. The Republic of Korea had previously allocated **US\$1.25 million** to **WFP** and **US\$2.5 million** to **UNICEF** in support of the humanitarian response in Venezuela.
- **Japan** allocated US\$3.5 million to support the earthquake response. The funding will provide humanitarian assistance in key sectors, including food security, health care, shelter and non-food items, through WFP, the International Federation of Red Cross and Red Crescent Societies (IFRC) and IOM.
- **Australia** announced a US\$2 million contribution to support the provision of food, shelter, healthcare and access to safe water through IFRC and WFP.
- **Switzerland** announced a contribution of CHF 2.5 million to support the response.
- **Sweden** contributed SEK 25 million to support the humanitarian response through food assistance, water, temporary shelter, protection and family reunification programmes implemented by WFP, UNHCR and Save the Children.

- **Denmark** announced an additional contribution of DKK 11 million to support the humanitarian response, including DKK 10 million through UNHCR and DKK 1 million through DanChurchAid and the Danish Red Cross.
- The Disasters Emergency Committee (**DEC**) announced an initial allocation of £7.5 million for the earthquake response in Venezuela, including £2 million contributed by the United Kingdom Government through UK Aid Match. The funds will be implemented by DEC member agencies and their local partners to support the humanitarian response.
- As part of the support provided by UNDAC, the team includes a private sector coordination specialist to strengthen business engagement in response and recovery efforts. A private sector contributions tracker for the Venezuela earthquake response is available at <https://ven-eq.connectingbusiness.org>, together with a briefing note for the private sector outlining opportunities for engagement. Focal point: sanchez21@un.org.
- **OCHA** continues to coordinate with donors and partners to ensure rapid, strategic and needs-based allocation of resources.
